Subject: RE: Willis water rights 37-8502, 37-20400, and 37-8822

Chuck,

IDWR does not mind if you want to speed up licensing of the Willis permits by conducting the examinations and preparing field reports. IDWR would do the examinations in due course, but right now our priorities are transfers, permits, licenses needed for permits claimed in the SRBA and permits about to be claimed in the NIA, and SRBA objections.

By copy of this email, I am asking Allen Merritt to inform his staff that they do not need to schedule examinations for these permits.

Thanks for your help.

Subject: Willis water rights 37-8502, 37-20400, and 37-8822

Shelley,

Now that the last proof (37-20400) has been filed on Mr. Willis' water rights, we would like to get these licensed as soon as possible. The proof for 37-8502 was filed in 1989, and the proof for 37-8822 was filed in 1994 but no exams have been done. Mr. Willis' attorney, Ned Williamson, has requested that Brockway Engineering conduct the beneficial use exam. As you know, the Department has recently allowed us to conduct the exam for permits that had been pending for a long time even though proof had already been filed. Would that be possible for these three?

Thanks,
Chuck
