RE: FIELD EXAM NOTICE FOR WATER RIGHT PERMIT NO. 81-7098

Dear Permit Holder:

The Idaho Department of Water Resources (Department) received proof of beneficial use for water right permit no. 81-7098 on November 26, 2004. The next step in the water appropriation process is the completion of a field examination to confirm the development under the permit so that a water right license can be issued.

Attempts to contact you by telephone and schedule the field examination have been unsuccessful since the telephone number on file is no longer in service. However, I will be in the area from July 28, 2008 through July 29, 2008 and would like to complete the examination during this time. My preference would be to complete the examination in the afternoon of **July 29, 2008**. An examination is necessary to verify water use developed under the permit in order to issue a water right license.

Please be advised that you will be required to operate your system under normal conditions during the examination.

If you have any questions or would like to confirm the field examination date and time, please contact me at (208) 287-4943.

Sincerely,

Aaron Marshall
Water Allocation Bureau
