

MEMORANDUM

Date: October 16, 2008
To: Water Right File 77-7337
From: nvandyke
Re: license review

During licensing review it was determined the season of use for right 77-7337 will retain permit year-round season of use. Because season of use is now different than that used in field report volume calculations also now modified. Field report recommended a total authorized volume of 19.8 afa at 184 day season of use. Recognizing year-round usage volume now recommended at 20.4 afa. Calculations are as follows:

500 gpd per lodge x 365 days = 182,500 gal per year.
182,500 gal x (1af/325,850gal) = 0.6 afa
2 lodges at 0.6 afa = 1.2 afa
32 cabins at 0.6 afa = 19.2 afa
2 lodges + 32 cabins = 20.4 afa

Beneficial use examiner found that decree 77-2056 ties into the same system as this license. A combined limit between the two rights is not applicable because the decree for 77-2056 does not place a limitation on acre-feet or number of dwellings right can provide for.
