RE: Application for Permit No. 75-14549

The IDWR Planning Section does not wish to raise any public interest concerns over Application No. 75-14549, which proposes the use of 0.06 cfs of water from Kid's Creek. The applicant should be aware that the Idaho Water Resource Board holds a minimum stream flow water right 74-14187 in the same reach or downstream of the applicant's point of diversion. As a junior water right holder, when the minimum stream flow is not being met, the applicant's water will be curtailed.

The Idaho Water Resource Board would also like assurance that the applicant's water right will be actively administered to protect the Board's minimum stream flow right.
