**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

**IN THE MATTER OF APPLICATION FOR)
PERMIT #63-12329 IN THE NAME OF)
PAULSON FARMS)**
_____)

**PRELIMINARY ORDER
VOIDING APPLICATION**

FINDINGS OF FACT

1. On May 15, 1992, IDWR placed a "Hold" on the processing of new ground water appropriations in the Boise River Basin.
2. On March 25, 1996, Paulson Farms filed application for permit #63-12329 with the Idaho Department of Water Resources (IDWR) seeking ground water for irrigation beneficial use.
3. In early January 2008, IDWR again resumed processing of new ground water appropriations in the Boise Basin. On July 23, 2008, IDWR sent Paulson Farms a letter requesting their intent for processing the application for permit. A response was required within 30 days from the letter date.
4. To date, IDWR has not received a response from Paulson Farms.

CONCLUSIONS OF LAW

1. Idaho Code (IC)§ 42-204 and the Rules and Regulations of IDWR state that if an applicant does not submit requested information to IDWR within thirty (30) days of the date of request, IDWR may void the application. Water Appropriation Rule #35 also requires applicants to provide written notification to IDWR of changes in the applicant's name or address.
2. Paulson Farms failed or refused to provide IDWR the requested information. The application should be voided.

ORDER

IT IS HEREBY ORDERED that Application for Permit #63-12329 in the name of Paulson Farms be VOIDED.

Dated this 2nd day of September, 2008

John Westra
Manager, Western Regional Office

CERTIFICATE OF SERVICE

I hereby certify that on this 3rd day of September, 2008, I mailed a true and correct copy of the foregoing **PRELIMINARY ORDER** to the person(s) listed below:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Att'n: John Westra
2735 Airport Way
Boise, ID 83705-5082

Ref: Water Rights Permit: 63-11698 & Application 63-12329

Dear John;

This is a follow-up to our phone conversation on 8 Sep 2008 regarding the referenced water right matters. I have enclosed the signed and notarized application and permit transfer forms. I have also included a check for filing fee for 63-11698 as indicated on this form. Both of these involve the same irrigation well located on Red Top Road west of Batt Corner Road in Wilder, ID that provides irrigation water to farm land that the Diller Miller Land Company, LLC purchased in 2001 from Paulsen Farms.

I filed at your office for a transfer of ownership of these rights on 15 Apr 2002. There was some apparent mis-communication in 2002 between myself and Ms. Kay Walker of your department in 2002. She had sent a letter on 5 Oct 2002 requesting additional information that included the enclosed forms. During a phone conversation with Ms. Walker on 9 Oct 2002 concerning her request, she told me that all she required was a letter from Mr. Paulsen outlining the land sale and copies of the deeds of transfer. I submitted what she asked for in a letter dated 22 Oct 2002. I did not send the forms as I believed she did not require them. I heard nothing else about the transfer and assumed it had been accomplished in 2002.

It was not until a phone call from Mr. Paulsen on 8 Sep 2008 regarding a letter he received that was sent to an old unused address for Paulsen Farms that indicated these water rights were cancelled that I knew they were not transferred to Diller Miller Land Company LLC. Apparently other correspondence had been sent to the improper address which was not received by myself or Mr. Paulsen.

I am therefore requesting that the water permit and application be reinstated immediately with the ownership as the Diller Miller Land Company LLC.

Sincerely.

A handwritten signature in black ink, appearing to read "Stephen J. Miller", written in a cursive style.

RE: Preliminary Order in the Matter of Application for Permit #63-12329

Dear Applicant:

The accompanying order is a "**preliminary order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as described in the enclosed information sheet.

If you have any questions regarding this matter, please call me at 208-334-2190.

Sincerely,

John Westra, Manager
Western Regional Office

Enclosures

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Held Application for Permit #63-12329--Filed March 25, 1996

Dear Applicant:

As you aware, the above reference application for permit located in the Boise River Basin has been held by our agency since the 1990s. The Department began holding new groundwater applications for consumptive use due to prolonged drought and concerns about declining aquifer levels. As a result, the Treasure Valley Ground Water Study was initiated. The study was completed in 2002, and now provides modeling for projecting future groundwater availability in the valley. Our agency will commence processing held applications as staff resources are available.

Attached is a profile report of your application as submitted to our agency. Please check carefully the specifics on the application. You must still have full possessory interest- ownership in the listed point of diversion and place of use land locations for processing consideration. Your application will need to have public notice published in your local county newspaper. The notice will be published once per week for 2 consecutive weeks. Anyone having issue with an application may file a protest within the time allowed.

We are asking for you to convey your intentions regarding this application by completing the attached response form. *Please respond to the following:*

- If you desire to develop the water use, and wish our agency to complete the processing of your application, please mark the *YES* response, provide any updates/changes needed, and list the water bearing zone for the well source.

OR

-Mark the *NO* response to withdraw the application. The application will be removed from processing and our records. Our agency will not be able to provide refunds of fees for withdrawn applications.

-Sign, date, and return the response. Response forms need to returned to this office no later than 30 days of this letter date.

Should you have questions about further processing of this application, please contact Denise Buffington or John Westra at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager Western Region

RE: Application for Permit 63-12329

Dear Paulson Farms:

Your application for permit to appropriate ground water for irrigation was received 03/25/1996. Processing of this application must be delayed.

Due to continued drought and to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/1992 concerning water right applications proposing new consumptive uses of public water. The moratorium has now been lifted, but a backlog of applications filed during the moratorium must first be processed before new applications may be considered.

Our office will hold this application and will begin processing it as soon as the backlog has been eliminated. All applications received will be processed in priority order. Delays related to department actions do not affect the date of priority or seniority of this application, once established.

If you have any questions, please feel free to contact me at 334-2190.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Lori Graves'.
