As per our telephone conversations on Friday, March 16, 2007, please see attached form and payment for application for **OR** transfer of water rights for our property located in Garden Valley, Idaho.

As per my conversation with Cynthia, I went online and did a search for previous water right ownership on this property and did not seem to be successful in this endeavor. I am giving you the address and legal description of this property in case your search is more fruitful than mine was.

We would like to own the water rights for the well on our property. We thought we did upon purchasing the property but are finding out that we need to go through you to make formal application. We have river access and the irrigation water rights for that appear to be in our name but after talking to you Cynthia...it sounds like I need to send you the attached form to get or transfer the water rights for our domestic well into our name. Our property is a single family dwelling on less than .05 acres. It is not our primary residence.

Here is more pertinent information that may be needed. Please call if there are any problems or you need any further information. Thank you. (208) 378-1248
