Dave,

I looked at WD records for these rights. The old records are on microfilm & the current records are scanned on Backfile on A012/Water Distribution/Water Districts.

The ownership documentation with the transfer leads back to Willis Wright who is on the WD records for rights 13-754, 13-755, 13-756 & 13-749, 13-952 (Sometimes listed as 11-692, 11-693, 11-694 & 11-686, 11-687). Records from 1977, 1978 & 1986 prior to CRP show a total diversion of 0.80 cfs charged to Willis Wright. 1986 was a good water year & the watermaster notes all rights were satisfied. This amount is the same as recorded delivered for more recent years while the subject transfer property has been in CRP, & is equal to the two rights not proposed transferred.

This information supports the watermaster's comment that the transfer rights haven't been diverted in very long time. You might want to discuss this with the watermaster & see if he has knowledge of the rights being associated with a different owner.

The WD records appear to reflect a period of non-use prior to enrollment of the land in CRP that could be considered forfeiture. Jeff recommends a 30-day letter to the applicant identifying our concerns. Request that the applicant provide comment &/or evidence to support use of the rights prior to CRP.

Pam
