Re: Application for Transfer of Right 67-14305

Dear Ms. Wilson:

Upon initial review of the above referenced application for transfer we find that we need more information before we can accept this application. We are returning the application to you so you can complete the form, sign it in the presence of a notary public and return it with the correct filing fee.

We found that you have indicated you wish to change the irrigation season of use from the standard irrigation season to January 1 through December 1. This would be an expansion of the water right and we cannot allow this unless you are willing to give up some of your irrigated lands for the additional season of use. The Department has found that the standard irrigation season of March 1 through November 15 is long enough to grow crops in your area.

We need to know where you intend to place the additional well requested under this transfer application. Please mark the location on the map and add that location to item 4, Part 1 of the application form.

You need to complete items 6b and 6c on page 2 of the application form. Also, complete item 9, Part 2 of the form regarding other rights used for irrigation purposes. The remarks on the recommended right indicate that water is also used from Institute Canal Company. This should be included on the form if it is true.

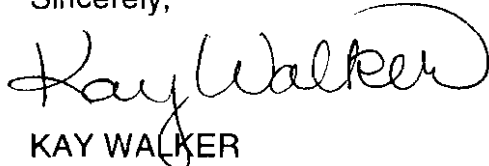

As mentioned above, you need to sign the form in the presence of a notary public before we can process it. The filing fee for submittal of this application is \$100.00. Please attach your signature and the correct filing fee before returning the application to our office. If you wish to come into our office, we have notary publics available that can assist you with the notarization of your signature. If you wish to come in for assistance with completion of the form please call me and set up an appointment so we can sit down and complete the form.

C.L. "BUTCH" OTTER, Governor
DAVID R. TUTHILL, JR., Director
