- a) ☐ I do not oppose approval of this application

OK as drafted, see additional comments

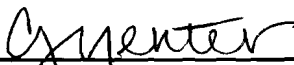

- c) ☐ I oppose approval of this application(s) for the following reasons:
- d) ☒ Additional comment:

Most of the lands are within SWID and according to the owner the farm is being supplied with SWID surface water. Should a supplemental condition be added?

A portion of the water right was reserved from the WSB lease, and another portion was rented back for use in SW Sec 27 where there are no rights. However SW S27 will be covered by this right when the transfer is approved, therefore the WSB rental may no longer be necessary.
