RE: Change in Ownership of Water Rights 34-13779, 34-13813, 34-13815, 34-13817

Dear Ms. Ball:

On November 16, 2006, I was contacted by the Mackay Water District No. 34. The letter was sent because it was your office asking for my records to be updated. Enclosed is a copy of that letter and the response from you 19 months later. My reply to that request was sent on December 11, 2006 and I included the application for the change of ownership. I thought that needed to be done because I took my maiden name back after my divorce on April 12, 2006; however the ownership has not changed other than taking my ex-husbands name off. I feel that after 19 months it now seems futile to me. Your response was extremely slow and giving me 30 days to come up with \$100.00 (that I wasn't informed I would need to pay) for you to update your paperwork, will not work for me. The water rights stay with the property and I own the property, and I have a quit-claim deed signed by my ex-husband. Therefore; go ahead and keep the water rights listed as they are as I don't see it being a problem.

Thank you for your time.

Sincerely,

Anna L. Johnson
