WATER RESOURCES

I updated the POU shape & made comments
I was going to do the P/D but the GPSed location
is in a different 10 acre tract.

We had talked about this one quite a while

and just recently re surfaced

Twin Falls,

I called Mrs. Davis and ask I could meet her and Ronald to review their water right and she informed me that he is out of town until next week but she would be glad to go over this file , while discussing this right she informed me that they have 18 shares of CC water which they irrigate their pasture and they do not share the Maxwell-Griffin-Petersen well, they have their own well for domestic and stock purposes.
