RE: Application for Transfer 72003

Dear Applicant(s):

The Department of Water Resources has received your application for transfer. After further review of the application, it indicates that these water rights have not been delivered for a very long time. We have reviewed the watermaster records to verify the last usage or delivery of these rights. This includes a period prior to the lands being put into CRP.

The Water District records appear to reflect a period of non-use prior to enrollment of the land in CRP that could be considered forfeiture. Please provide comments &/or evidence to support use of the rights prior to CRP.

This information needs to be clarified before processing can proceed.

Please submit this information within 30 days from the date you received this notice. If you do not respond within 30 days, IDWR may void your application.

Please feel free to contact this office if you have any questions.

Sincerely,

Dave Carlson
Sr. Water Resource Agent
