RE: Application for Permit 74-15892

Dear Applicant(s):

The Department of Water Resources has received your water right application. I spoke to Shelley Keen again after I received your e-mail in regards to the usage of the water for the above water right number. Due to the complications in Basin 74, Lemhi Drainage area, Shelley suggests you reconsider applying for Domestic use only and then when you plan on using water from the well for dust abatement that you file a temporary application for that season. If we process this application this way, then the application could go forward and you could get a water right for Domestic usage only. This would give you 2500 gallons a day for the maintenance shop / warehouse usage.

Please let me know what your thoughts are in regards to this application. I will continue to work with you on this matter.

Please feel free to contact this office if you have any questions.

Sincerely,

Sharla Cox
Administrative Assistant
