RE: Request for additional information from Rob Harris

This afternoon I spoke on the telephone with Rob Harris (208-523-0620) about the additional information submitted on behalf of Layne Harris's request to modify the diversion rate for Water Right 22-7397. I told Rob that it would be useful to have a copy of the original lease for the "Church farm." If the lease commenced after 1983, it would support the conclusion that the water use established by 1983 was for the permitted 158 acres only. I also told Rob that it would be useful to have documentation showing that the booster pump was in place by the time proof of beneficial use was submitted in 1983. Showing that the booster pump was in place by 1983 would prove that it was needed to pressurize 9 hand lines on the permitted place of use and that it was not installed to pressurize the irrigation lines needed for the additional 100 acres on the "Church farm."
