

Date: 10-01-08

To: Department of Water Resources

From: Mel Bailey and Marsha Bell

Subject: permit no. 96-9386 for property on 4501 Bottle Bay Sagle ID. 83860

The lake water permit that we have applied for was being reviewed for the proper encroachment permit for a water inlet. The water inlet had been installed when the property for built prior to 1975. The Idaho Department of Lands did find the transfer to us a permit for this installation. We have enclosed a copy of the transfer and the permit itself.

We hope that this is all that you need to complete our application

Thank you for your time and effort in this matter.

Sincerely

Mel Bailey Marsha Bell
