RE: Application for Permit Extension
Permit No 22-13532
TETON HIGHLANDS LLC
721 S 450 WEST
Victor , Teton Co, Idaho

We are requesting an extension of the one year from date of the Water Permit No 22-13532 for Teton Highlands Public Water System wells. The reason for the delay is
1- This water wells are to be drilled for domestic water for a subdivision and the county has been very slow in getting this approved so we can proceed with the on site work.

2- The county required the owner to do a N/P study on the project for the sewer systems to meet acceptable standards. The study has taken much longer and has been much more involved than any one expected. It is going on now for 18 months.

3. A group of neighbors have threatened law suit and been work with a local group that (VARD that has caused a delay in the developers plans and the counties progressing through the subdivision approval .

All of the above items have not been under our control so please extend our permit for a minimum of one year .

Please call the owners Engineer (Arnold Woolstenhulme) if you have any questions .
Thanks for your efforts on our behalf.

Kind regards,

Arnold W. Woolstenhulme P.E./L.S.
