

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Jeff Johnson Phone 208-722-7307
Mailing address 23672 Walker Road, Parma, ID 83660
2. Source of water supply ground water which is a tributary of NA
3. Location of point of diversion is Township 5N Range 4W Sec. 6 in the 1/4,
SE 1/4, SW 1/4, Govt. Lot , B.M., Canyon County .
additional points of diversion if any: two wells in the SESW Section 6, T5N, R4W
4. Water will be used for the following purposes:
Amount 0.30 for irrigation purposes from 3/1 to 11/15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.30 and/or (b)
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source two wells (one existing, one proposed) with electric pumps, pipe to sprinklers
 - b. Height of storage dam feet; active reservoir capacity acre-feet; total reservoir capacity acre-feet
 - c. Proposed well diameter is 8 inches; proposed depth of well is 400 feet
 - d. Is ground water with a temperature of greater than 85°F being sought? no
 - e. If well is already drilled, when? 1998; Drilling firm SOS Well Drilling
Well was drilled for (well owner) Jeff Johnson; Drilling Permit No. tag# D0007321
7. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in KW.
 - b. Stockwatering; list number and kind of livestock.
 - c. Municipal; show name of municipality.
 - d. Domestic; show number of households.
 - e. Other; describe fully.

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	N E				N W				S W				S E				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
5N	4W	6									2			13					15

Total number of acres to be irrigated 15

10. Describe any other water rights used for the same purposes as described above. _____

11. a. Who owns the property at the point of diversion? applicant
- b. Who owns the land to be irrigated or place of use? applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

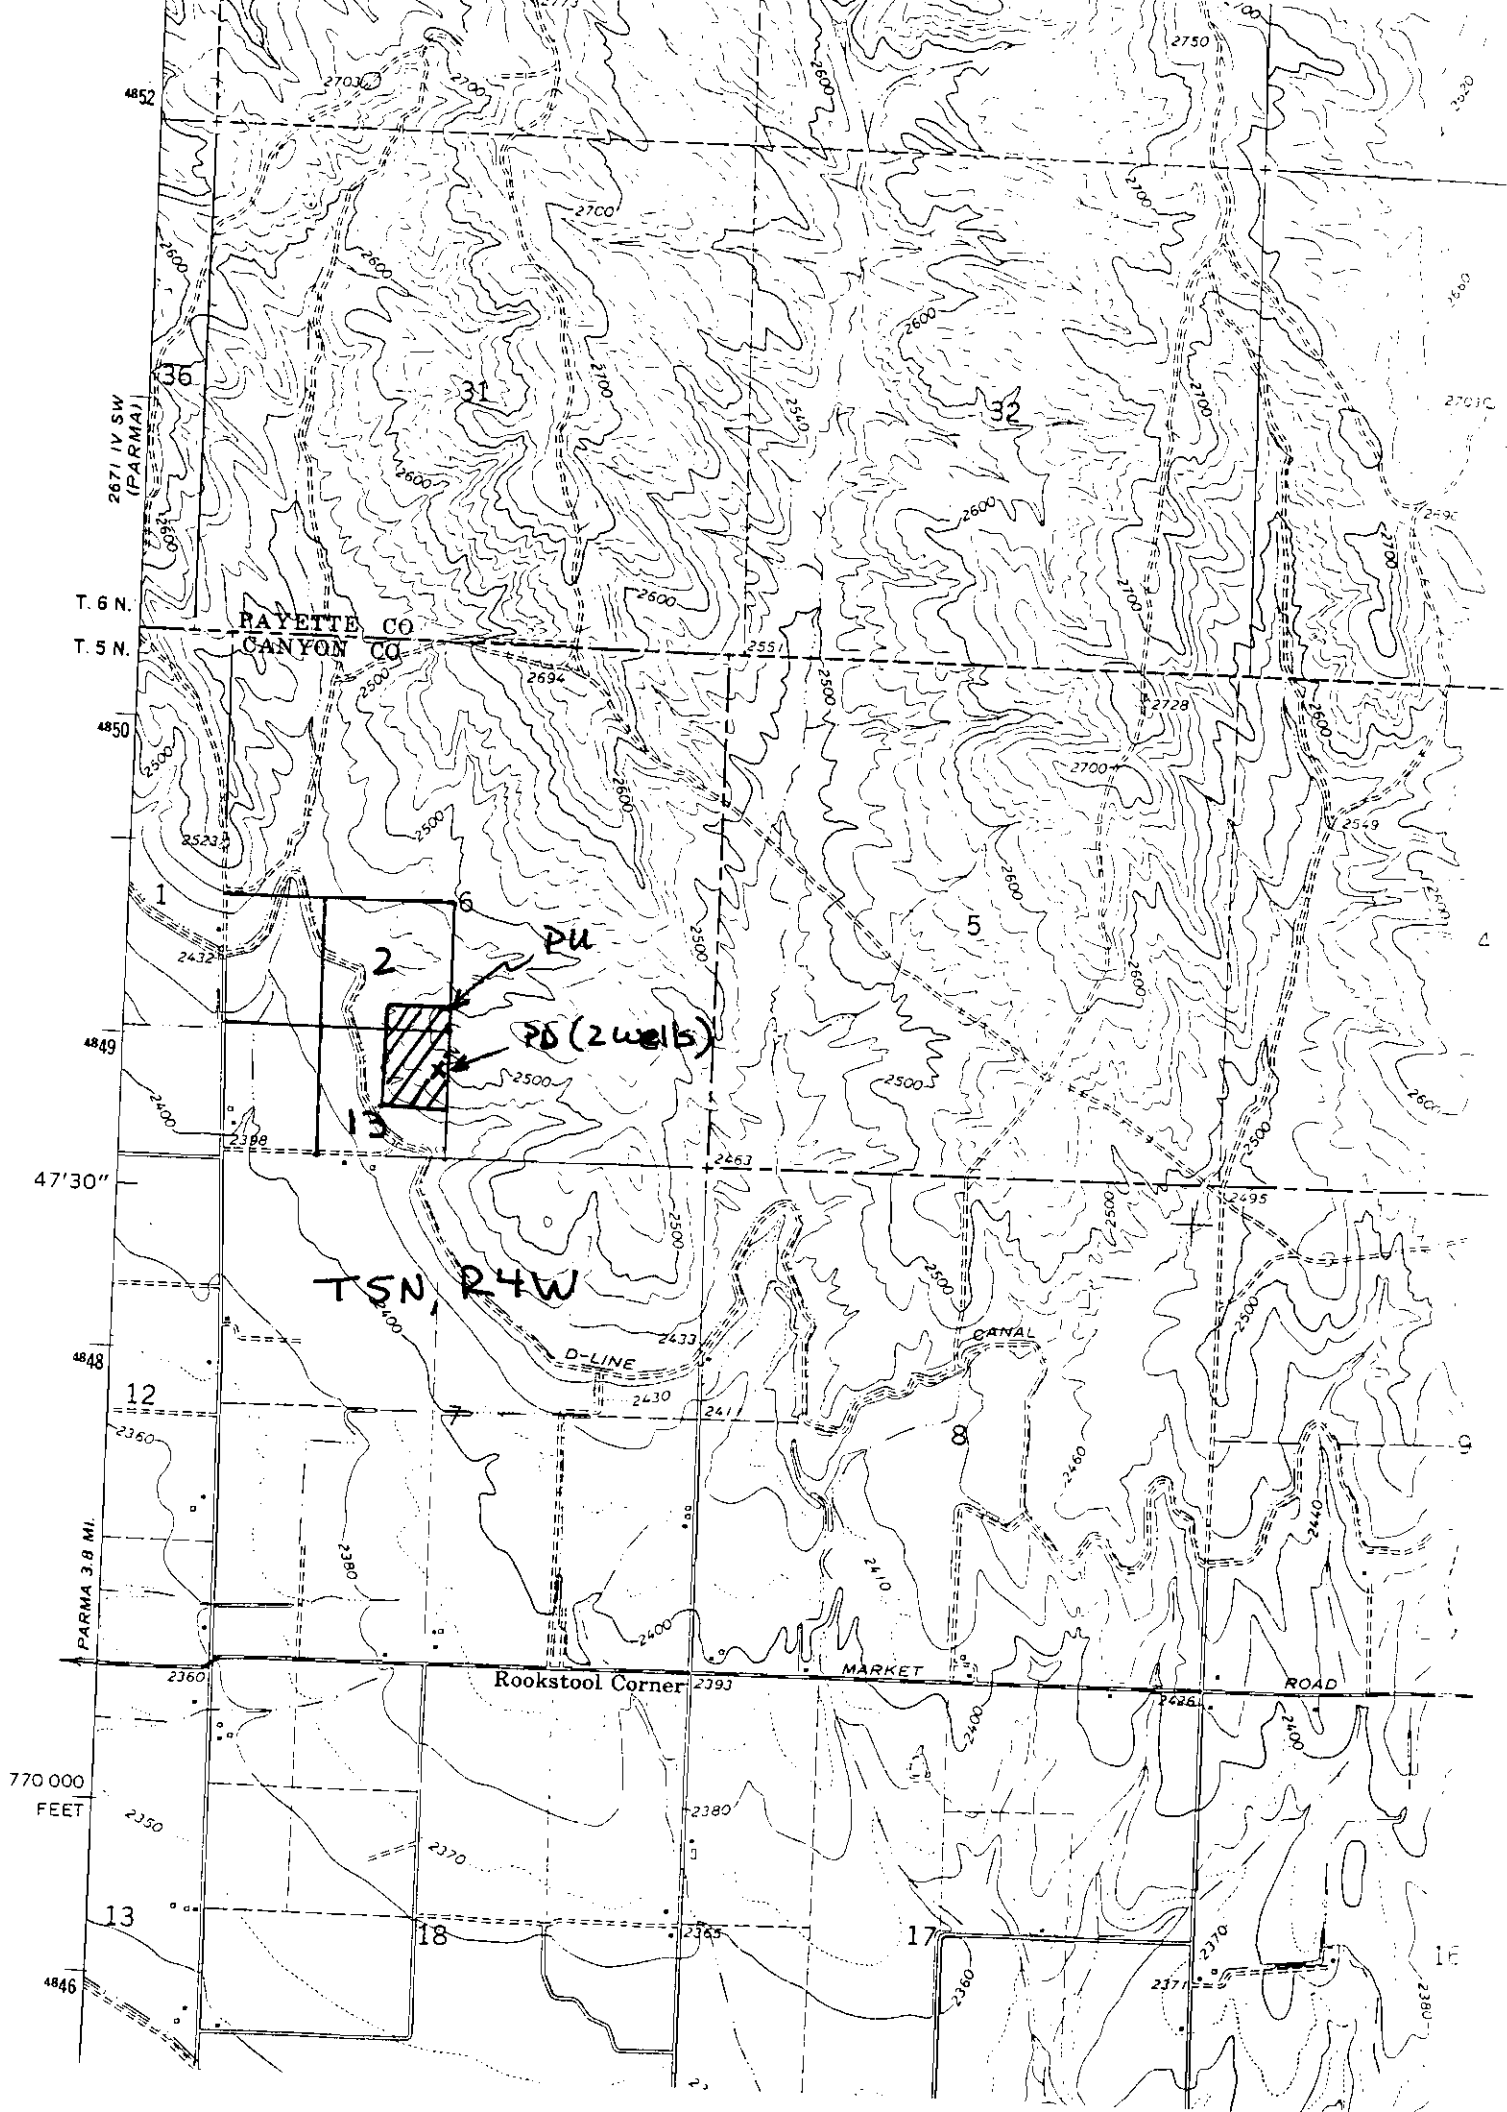

12. Remarks: Applicant proposes to mitigate consumptive use by retiring a valid surface water right (Snake River or tributary to Snake River). Water bearing zone to be appropriated is 200 to 400 feet.

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

REQUEST TO PROCESS

COMPLETE REQUEST IF YOU WANT YOUR APPLICATION TO BE PROCESSED USING ONE OF THE
THREE ALTERNATIVES BELOW

Name of Applicant Jeff Johnson
Mailing Address 23672 Walker Road
Parma, ID 83660

Application No(s).:
(if known)

☐ IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

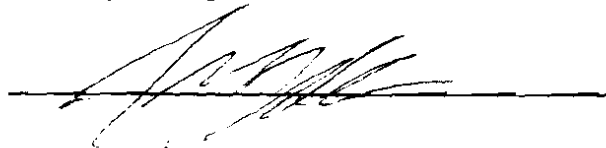

☒ PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions to flows in the Snake River during the periods of anadromous fish migration.

☐ WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

MEMORANDUM

DATE: 5/19/2004

FROM: Lori Graves

TO: Application 63-31256

RE: Moratorium Hold Drawer

The deal fell through on obtaining the surface water right (private) that applicant was going to purchase and retire for mitigation. This application cannot be approved without mitigation for the irrigation consumptive use because the proposed ground water is tributary to the Boise River drainage and subject to the basin 63 administrative hold. The application will be held with the other moratorium hold files, although it has already been advertised.

Subject: Jeff Johnson - Application for Permit

Lori -

Thanks for the phone message today regarding Jeff Johnson's water right application. I understand that the application has made it through the advertising process without protest, and that the file is on your desk waiting for the following.

1. Mitigation Plan
2. Description of Water Right Proposed for Mitigation Plan
3. Notice of Water Right Change of Ownership
4. \$125 check for drilling permit upgrade.

We are currently negotiating the purchase of a water right for mitigation purposes. However, the potential seller has a few things to get in order before proceeding with the deal. I suspect that it will be another three to four weeks before we can move forward. In the meantime, could you hold the application please? We will try to get the mitigation worked out as soon as we can. Thanks.

Terry

My commission expires June 21, 2003

Permit No. D0007301
Permit No. _____ (if applicable)

**REQUEST FOR ISSUANCE OF DOMESTIC DRILLING PERMIT
WITH CASING SIZE EXCEEDING SIX (6) INCHES**

Jeff Johnson, Applicant, requests the issuance of Drilling Permit for domestic (exempt) purposes as defined in Idaho Code Section 42-111, which authorizes construction of a well with casing size exceeding six (6) inches in diameter. The Idaho Code states, in part:

"the phrase 'domestic purposes' or 'domestic uses' means:

- A. *The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to one-half (1/2) acre of land, if the total use is not in excess of thirteen thousand (13,000) gallons per day, or*
- B. *Any other uses, if the total use does not exceed a diversion rate of four onehundredths (0.04) cubic feet per second and a diversion volume of twenty-five hundred (2,500) gallons per day.*

For purposes of these sections, domestic purposes or domestic uses shall not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments, unless the use meets the diversion rate and volume limitations set forth in subsection B. of this section."

The request is made to drill a 8 inch diameter well for the following reason(s):

- ☒ A larger diameter is required because of expected limited productivity of formations expected to be encountered, or difficulties in drilling that have been experienced.
- ☐ The pumping equipment available requires a larger well diameter and will be valved to prevent excessive diversion
- ☐ Other _____

Who owns the property at the point of diversion? _____

Who owns the land to be irrigated or place of use? _____

If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing in behalf of the well owner _____

I acknowledge that use of this well for any other purpose than domestic use as defined under Idaho Code Section 42-111 requires approval by the Idaho Department of Water Resources and that failure to comply is a violation of Sections 42-351 and 43-352, Idaho Code.

Boise, ID 83705

RECEIVED

JUN 21 2001

WATER RESOURCES
WESTERN REGION

Subject: Application for Permit Submitted by Jeff Johnson

Dear Lori:

As we discussed on the telephone yesterday, please proceed with advertising of the application for permit for Jeff Johnson. The application proposes appropriation of groundwater for irrigation of 15 acres northeast of Parma. Both groundwater and surface water at the place of use are tributary to the Boise River. Therefore, the application is subject to the administrative hold on processing of new applications for permit in the lower Boise River Basin. However, to allow the permit application to be processed and approved, Mr. Johnson proposes to mitigate the proposed appropriation by retirement of an equivalent amount of surface water right that is tributary to the Snake River.

In our conversation, you indicated that Mr. Johnson needs to provide the following items to the Department before final processing of the application.

1. A description of the water right proposed for mitigation (i.e., a mitigation plan).
2. A \$125 fee for upgrading the drilling permit for the existing domestic well proposed for use under the permit.
3. A Notice of Change in Water Right Ownership form for the water right proposed for mitigation. The Change in Water Right Ownership can be held until the permit is approved.

These items will be provided following advertisement of the application. Please contact me after the protest period and I will submit the three items discussed above.

Sincerely,

Terry M. Scanlan, P.E., P.G.
Engineer/Hydrogeologist
