CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **September 01, 2012**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
5. Water bearing zone to be appropriated is from 200 to 300 feet.
6. This right does not grant any right-of-way or easement across the land of another.
7. Place of use is located within Lot 2, Blk 1, Stillwell Estates #1.
8. To prevent injury to prior water rights appropriating water from the Boise River and/or the underlying shallow aquifer tributary to Boise River, the new well used as a point of diversion for this water right located within T05N R01E, Section 29 SESE, shall be constructed and maintained with unperforated casing and sealed into the first significant confining layer located 200 feet or more below ground surface.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 63-12089

9. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 2nd day of September, 2008.

JOHN WESTRA
WESTERN REGIONAL MANAGER
