ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Response Form

Name of Applicant: William H and Andrea H Thompson

Application No: 63-12240

* (Please read carefully and mark)

☒ **Yes, I intent to proceed with the water use development outlined in the application. As applicant, I still retain full possessory interest in the listed point of diversion and place of use locations on the application.**

(Mark one choice)

☒ The water bearing zone for the proposed well (point of diversion) will be greater than 200 ft. My application proposed (well) water bearing zone will be 250 to 350 feet.

☐ A Mitigation Plan will be submitted within 90 days to mitigate my water use that would otherwise cause injury to existing surface water rights from the Boise River.

☐ **No, I do not wish to proceed with final processing of this application. I hereby withdraw my Application for Permit to Appropriate The Public Water of the State of Idaho**

RE: Held Applications for Permit #63-12240 filed 06/07/95

Dear Applicant:

As you aware, the above reference application for permit located in the Boise River Basin has been held by our agency since the 1990s. The Department began holding new groundwater applications for consumptive use due to prolonged drought and concerns about declining aquifer levels. As a result, the Treasure Valley Ground Water Study was initiated. The study was completed in 2002, and now provides modeling for projecting future groundwater availability in the valley. Our agency will commence processing held applications as staff resources are available.

Attached is a proof profile of your application as submitted to our agency. You must still have full possessory interest- ownership in the listed point of diversion and place of use land locations for processing consideration. Please check carefully the specifics on the application. Your application will need to have public notice published in the local county newspaper. The notice will be published once per week for 2 consecutive weeks. Anyone having issue with an application may file a protest within the time allowed.

The application lists points of diversion in Township 05N, Range 01E, Section 30. Ground water less than 200 feet depth at this location is considered tributary to the Boise River. Surface water in or tributary to the Boise River upstream of Star bridge is fully appropriated. This means that a new appropriation of ground water would potentially injure a senior Boise River surface water right. Our agency can not process your application unless one of the following can be satisfied:

- 1. An acceptable mitigation plan is filed to mitigate for ground water use that would otherwise cause injury to senior water rights from the Boise River. An example might be the purchase and retirement of an equivalent Boise River surface right*
- 2. The application proposes to appropriate ground water deeper than 200 feet below ground surface. Applications meeting this criterion shall be evaluated on a case-by-case basis in accordance with applicable water laws and rules.*

Page 2.
Application

We are asking for you to convey your intentions regarding this application by completing the attached response form. Please respond to the following:

- If you desire to develop the water use, and wish our agency to complete the processing of your application, please mark the *YES* response. Also, mark the choice needed to meet the Boise River shallow ground water criteria. A consultant list is enclosed if you need assistance.**

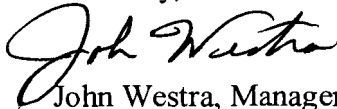

OR

- Mark the *NO* response to withdraw the application. The applications will be removed from processing and our records. Our agency will not be able to provide refunds of fees for withdrawn applications.**

- Sign, date, and return the response. Response forms need to returned to this office no later than 30 days of this letter date.**

Should you have questions about the history or further processing of this application, please contact Denise Buffington or John Westra at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager Western Region
