Total Acres: 250

CONDITIONS OF APPROVAL

1. Diversion and use of ground water under this right shall not occur until diversion of surface water from Medicine Lodge Creek is curtailed by priority date of 02-01-1884 under overlapping Right 32-13276.
2. Rights 32-7081B and 32-13276 shall not exceed the irrigation of a combined total of 250 acres in a single irrigation season.
3. Rights 32-7009, 32-7081B and 32-13276 shall not exceed the irrigation of a combined total of 476 acres in a single irrigation season.
4. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
5. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
6. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.

WATER RIGHT NO. 32-7081B
As Modified by Transfer No. 73144

CONDITIONS OF APPROVAL

7. Prior to the diversion and use of water under Transfer approval 73144, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
8. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
10. The period of use for the irrigation described in this approval may be extended to a beginning date of 4/1 and an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/15 and after 10/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 10/27/2000.
11. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
12. The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
13. The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
14. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
15. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
