Re: *Original:* Water Right No. 65-10463B
Split into: Water Right No. 65-23261 & **65-23262**

Dear Water Right Holder(s):

We have received and processed a Change of Ownership for a portion of the original Water Right as referenced above. This Change of Ownership required a split of the original water right resulting in renumbering this water right, using a new water right number to represent each split. The new water right number for your portion is referenced above and a copy is enclosed.

Your portion of this water right has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your water right, then no further action is required at this time.

The original water right 65-10463B was leased to the Water Supply Bank (bank) on April 14, 2004. This right was split through an ownership change into water right nos. 65-23261 and 65-23262. The portion leased to the bank is now authorized under those split numbers. In accordance with the Water Supply Bank Lease Acceptance, the lessor may not use the right while it is in the bank, even if the right is not rented from the bank. This portion will remain in the bank indefinitely unless the rights are released earlier by the Water Resource Board or upon request by the lessor. To change the term of the lease or to release the right(s) from the bank, the lessor must submit a request in writing to the department prior to the release date.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning the enclosed information or this letter.

Sincerely,

Jean Hersley
Office Specialist I
