Re: *Original:* Water Right No. 65-10463B
Split into: Water Right No. **65-23261** & 65-23262

Dear Water Right Holder(s):

We have received and processed a Change of Ownership for a portion of your original Water Right as referenced above. This change of ownership resulted in a split of your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, then the original water right number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new water right number reflects your remaining portion of the original water right, after the change of ownership. Enclosed is a copy of this new water right for your records. Please refer to your new water right number when corresponding with our office.

The original water right 65-10463B was leased to the Water Supply Bank (bank) on April 14, 2004. This right was split through an ownership change into water right nos. 65-23261 and 65-23262. The portion leased to the bank is now authorized under those split numbers. In accordance with the Water Supply Bank Lease Acceptance, the lessor may not use the right while it is in the bank, even if the right is not rented from the bank. This portion will remain in the bank indefinitely unless the rights are released earlier by the Water Resource Board or upon request by the lessor. To change the term of the lease or to release the right(s) from the bank, the lessor must submit a request in writing to the department prior to the release date.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning this ownership change, or the enclosed information, please feel free to contact this office.

Sincerely,

Jean Hersley
Office Specialist I
