

MEMORANDUM

Date: July 29, 2008
To: Water Right File 29-13155 and 29-7703
From: medl
Re: measurem't device

In several phone conversations, Nate Arave and I discussed resolution to the measurement device requirement on the Tovey water rights. Nate is working closely with Steve Hebdon, the Watermaster of District 29, Tim Luke and the permit holders daughters, Joyce Terry and Raida Jensen, to meet the requirements for a waiver.

According to a 7/28/08 email from Joyce Terry, they had requested exemption multiple times in the past. I searched the file documents for evidence of those requests. I found some evidence in the June 20, 2003 Proof Acknowledgement Letter to Mr DeVere Tovey for WR 29-13155. Deb Gibson requests that the permit holder provide a followup letter from the watermaster wherein he agrees to waive the requirement. There is no documentation in the backfile of either the request or of the followup letter from the watermaster.

Keith Wilsons field exam narrative to WR 29-7703 recommends removal of the measurement device. However there are no documents in the file from either the permit holder or the watermaster which request the measuring device requirement be waived.
