Subject: Water Right Permit

Michele Edl

We received a notice of Pending Order to Void Permit for water right permit no. 29-07703 and 29-13155. We have sent a request (I believe on two different occasions and a long time ago) for removal of the measuring device requirement. Because it has taken years to get these permits to this point, we certainly do not want them voided. I do not have a copy of the requests but will check with the Idaho Falls office to see if they have one. If you need a new request, please email me the form you need and exact instructions as to what you need filled out and signed and by whom.

Again, please do not void these permits.
