RE: Application for Permit 15-7303

Dear Applicant(s):

The Department of Water Resources had received your water right application. Preliminary data entry was done incorrectly. When the data entry was done, the application only showed the place of use in the SWSE for 6.7 acres. After review, the tax lot on our arcview mapping system shows 6.6 acres, with .3 of those acres in the NWSE and the other 6.3 in the SWSE.

We have amended your application showing the correct place of use in two (2) different $\frac{1}{4}$ $\frac{1}{4}$'s with a total of 6.6 acres. Please review this application, along with the map, sign it and return it to our office for final process.

We apologize for any inconvenience this has made. We are striving to do our very best for all Idaho water right holders.

If you have any questions, please feel free to contact myself at the above address or phone number.

Sincerely,

Sharla Cox
Administrative Assistant
