Subject: FW: Application for Permit No. 74-15624

Sharla,

This morning I spoke on the telephone with Al Simpson, the applicant for Application 74-15624. He intends to respond in writing to the letter from the Department of Fish and Game about his application. From our conversation I was under the impression that Mr. Simpson would be willing to reduce his application to 0.02 cfs per acre to alleviate IDFG's concerns. I also think he will request that IDWR continue processing his application to a final approval or denial.

Do you mind placing a copy of this email in the application file so that IDWR does not act on the application until Mr. Simpson's response to the IDFG letter is submitted?

Thanks.
