Re: Permit Application No. 71-10921, Extension Request
Project No.: 554-02-2006

Dear Corey:

Permit application No. 71-10921 was submitted to IDWR on December 7, 2007. Included with the application were additional documents required by IDWR to evaluate application in the Salmon River Drainage. In November 2007, our office contacted Idaho Fish and Game and Idaho Department of Environmental Quality to obtain comment letters. Unfortunately, IFG did not respond and IDEQ responded with a generic form letter (included with the application packet).

We received the IDWR letter dated May 21, 2008 again requesting additional comments from these agencies. We have again contacted them and requested official comments from their departments. We have not yet received comment letter from either IFG or IDEQ. We request a time extension of 30 days to receive comment letters from these agencies.

Sincerely,

G. Erick Powell, Ph.D., E.I.T.

cc: John Miller
