RE: DEQ comments on Water Rights Application 75-14462

Dear Mr. Maxwell:

The Idaho Department of Environmental Quality (Department) reviewed your water rights application, as well as the associated existing water quality information near your proposed project site identified in Application 75-14462.

The Department has no opposition to the granting of this right if it is developed according to the information you provided. The Department does encourage you to screen the intake on the pump used for diversion according to local fish and game specifications.

Lastly, the Department is aware of a protest to this application filed May 8, 2007. We request confirmation from you when the protest is resolved, and any changes to this water right application if granted by the Department of Water Resources.

We have no other comments at this time. Additionally, the Department believes this letter is sufficient to allow the Department of Water Resources to complete their review of your water rights application. Thank you for providing additional information and for the opportunity to review your application.

Please do not hesitate to contact me at 208.528.2650 for any additional information we may be able to provide.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Saffle", is written over a horizontal line.

Troy Saffle
Regional Water Quality Manager
