DEPT. OF WATER RESOURCES
SOUTHERN REGION

RECOMMENDATION OF WATERMASTER

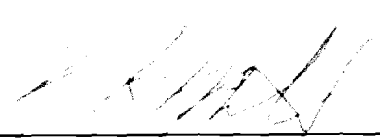

Transfer Application No: 74777 Water Right No(s): 71-4055B, 71-10854
Transfer Applicant's Name: Roger and Katherine Browning

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application.
- b) ☒ I do not oppose approval of this application if it is conditioned as follows:
"The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s)."
- c) ☐ I oppose approval of this application for the following reasons:
- d) ☒ Additional Comment:
Durnig previous discussions with Mr. Browning I had indicated to him that Pump #1 would not require measurement and control. However, that was based on an assumption that only WR 71-4055B would be diverted from that location. Adding pump #1 as a POD for both of the water rights in this transfer brings the diversion rate and irrigated acreage above the threshold for measurement and control in Water District 170.

Dated this 21ST day of August, 2008.

Water District No: 170
