Re: Transfer Evaluation

The purpose of this transfer is to change the place of use to reflect sprinkler irrigation under pivots. This transfer further combines 17-7013 and 17-2041 into a permissible place of use.

A lien holder release was requested for this transfer. This transfer does not remove the water right from the lands under lien. As a result this transfer will not likely result in a change in property value.

Authority to File:

The applicant submitted warranty deed showing ownership of the properties associated with this transfer.

Water Right Validity:

These water rights appear irrigated in 2006 NAIP imagery. These rights are based upon licenses. Forfeiture is not an issue.

Injury to Other Water Rights:

Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
