Re: Water Right Application No. 75-14477 (Trapani)

Dear Lyle,

Idaho Department of Fish and Game staff has reviewed the application from Jude Trapani for 0.02 cfs of groundwater to irrigate 1 acre near the city of Salmon. The well (drilled in 1971) is 20 feet deep and 6 inches in diameter. The landowner intends to pump from this well. This water withdrawal will not negatively impact fish or aquatic resources and we do not oppose the issuance of the permit.

We appreciate the opportunity to review this application and provide comments.

Sincerely,

A handwritten signature in cursive script that reads "James R. Lukens".

James R. Lukens
Regional Supervisor
