

## MEMORANDUM

**Date:** August 22, 2008  
**To:** Water Right File 11-7426  
**From:** Aaron Marshall  
**Re:** Licensing Review

---

Permit 11-7426 was approved on August 17, 1995. The permit lapsed, proof was submitted on October 1, 1997, and the permit was reinstated with an advanced priority of July 8, 1995. An application to amend the permit was received on November 8, 2006, to change the point of diversion and place of use. The field examination was conducted on August 24, 2007, by Department examiner Joe Larsen. Joe recommended the issuance of a license consistent with the application for amendment.

The application for amendment of permit should be treated as a licensing amendment since it was received after proof was submitted along with the requisite \$50 fee. The license should be issued as recommended by the examiner. The season of use should be changed to match the current Department standard for the area, 04/15 - 10/31.
