Re: Application for Transfer - Telford Lands LLC Water Rights

Dear Dave:

Telford Lands LLC recently acquired the Mickelsen Properties LLC, farm located in Butte County, Idaho. We have submitted a Notice of Change of Water Right Ownership to the Boise office of IDWR, and a copy of that information is enclosed for your reference. After purchasing the Mickelsen farm, Mr. Telford now desires to add a point of diversion to his existing water rights. As you will likely remember, the Department recently improved in 2006 a transfer which combined all of the Mickelsen Properties water rights. The proposed transfer simply proposes to add a new well in the NWNWNE, T4N., R26E., Section 4. Mr. Telford has authorized me to sign the transfer application on his behalf. Please note that on the second page of the transfer application, we have indicated that the property is subject to a lien. The lien is held by Farm Credit Services, and we anticipate receiving a notarized document agreeing to the proposed changes within the next week. Once we receive it, we will provide it to you in order to make the transfer application complete. However, in the meantime, we request that you proceed with the processing of this transfer application. If you have any questions, please let me know.

We have visited with Sharla Cox concerning the appropriate filing fee for this transfer. She indicated that the filing fee needed to be proportioned based upon what we anticipate will be the amount of water diverted from the new well. We anticipate the amount diverted will at a maximum, be approximately 5 cfs, and based upon the filing fee schedule, the appropriate filing fee is \$410.00. We have therefore enclosed a check for that amount. If you have any questions, please let us know.

Best Regards,
