COEUR D'ALENE, ID 83815

DEAR KEITH:

ENCLOSED IS A DUPLICATE COPY OF THE WATER PERMIT WE SENT YOU LAST FALL.

I ALSO CALLED KERBY COLE AT THE IDEQ IN LEWISTON, ID.

I'M SENDING HIM A DUPLICATE COPY AND HE SAID THER SHOULDN'T BE A PROBLEM
ON GETTING THIS PERMIT ISSUED.

ALSO ENCLOSED A MEMO TO YOU FROM VERN BRETZ THE FOREST SERVICE GEOLOGIST
THAT WROTE YOU A MEMO ON OUR TEMPORARY WATER PERMIT SO YOU KNOW WE HAVE
ACCESS AND EVERYTHING IS IN ORDER.

IF THERE'S ANYTHING ELSE WE NEED TO DO PLEASE CALL AND WE CAN GET THIS
FOR YOU. MY PHONE# 406-549-3970.

THANKS AGAIN FOR YOUR HELP.

TOM LARSON

c. The following information shall be submitted for application to appropriate unappropriated water...

Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows:

- i. For applications appropriating springs or surface streams with five (5) or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted. No other water rights exist on Papoose Creek or its tributaries. This application will not affect any water use downstream from the point of diversion or area of use.
- ii. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing wells and springs and permitted wells within one-half mile radius of the proposed well. Not applicable.
- iii. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights. Not applicable.

d. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be submitted as follows:

- i. Information shall be submitted on water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of the year that water is required, and the volume of water that will be consumptively used per year. Water requirements will not exceed 0.1 cfs. The period of use will run from May 1 to November 30. Less than 2500 gallons will be required per day during the peak use period when drilling operations are underway. Average use during the May 1 to November 30 time period will be less than 100 gallons per day. Annual consumptive use will not exceed 1.0 acre feet of water.
- ii. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during the periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for groundwater sources and information on other sources of supply that may be used to supplement the applied for water source. Flow rates exceed 2 cfs during peak runoff periods and diminish during the summer months to less than 0.2 cfs.

e. Information relative to good faith, delay, or speculative purposed of the applicant, Section 42-203(5)(c), Idaho Code, shall be submitted as follows:

- i. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower use shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code. Attachment A "Papoose Mining Claim Records"
- ii. The applicant shall submit copies of application for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials. Attachment B "Permits"

f. Information relative to Financial Resources, Section 42-203(5)(d), Idaho Code, shall be submitted as follows:

- i. The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed.
- ii. The Applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications. There are no construction costs associated with this application/project.

g. Information Relative to Conflict with the Local Public Interest, Section 42-203(5)(g), Idaho Code, shall be submitted as follows:

The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and or tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Environmental Quality, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the director.
