RE: Application for Permit No 96-9388

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application was prepared and scheduled for publication in the **Bonner County Daily Bee** on June 19 & 26, 2008. We were unable to make the connection with the paper so publication did not take place on those dates. The legal notice was then scheduled for publication in the **Bonner County Daily Bee** on **July 3 and 10, 2008**.

Although the paper had that legal notice timely, due to paper error that scheduled publication fell through the cracks. The legal notice is **NOW SCHEDULED** to publish on **July 17 and 24, 2008**. I received confirmation from the paper that it is being prepared and will publish as scheduled this time. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Keith E. Franklin
Senior Water Resource Agent
