Subject: Application for Permit, to appropriate the public water of the State of Idaho for new Operations Center at Lake Fork, Idaho.

Mr. Lester,

Idaho Power is requesting that you expedite our Application for Permit for our property at 30 West Lake Fork Road, Lake Fork, Idaho. The Application was submitted July 7, 2008 to your office.

Because of overcrowding at our existing facility, we are in the process building a new operations center which we anticipate occupancy by the end of 2008. In addition, Idaho Power has also scheduled capacity expansion of the main McCall substation which is adjacent to our existing office; this too will impact day-to-day operations of the facility. Both of these items have been drivers to relocate the local personnel to a larger facility.

Thank you for your consideration of our request.
