WATER RESOURCES
WESTERN REGION

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
PERMIT #63-12153 IN THE NAME OF)
MITCHEL TAIN) REQUESTING NEW WATER
WATER RIGHT AFTER
PRELIMINARY ORDER
VOIDING APPLICATION

On May 15, 1992, IDWR placed a "Hold" on processing of new ground water appropriation in the Boise River Basin.

On October 24, 1994, I Mitchel Tain filed an application for permit #63-12153 with the Idaho Department of Water Resources (IDWR) seeking ground water for irrigation, stockwater, and domestic beneficial use.

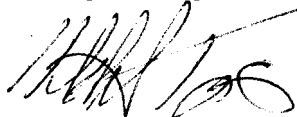

In early January 2008, IDWR again resumed processing of new ground water appropriations in the Boise Basin. On May 29, 2008, the IDWR sent me a letter requesting my intent for processing the application for permit. My intent was to locate an old existing well of 75 feet which IDWR had no information on. This delayed my response to your letter dated May 29, 2008, since I could not locate this old existing well.

After talking to John Westra the Manager of the Western Regional Office, he stated that I should write this letter stating that my intent was to continue with this application for a new ground water appropriation under the same permit #63-12153, since the old well would not have qualified at 75 feet.

Please renew my application and keep me informed of any future developments.

Dated this 3rd, day of August, 2008.

Thank you for your consideration.

Mitchel Tain
