PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 75-14329

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use forms and license examination fees submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use(s) being made of the water, and that it meets the permitted beneficial use(s).

During my review of your proof and water right permit, I found that this permit requires you to have a lockable controlling works installed prior to diversion of water. I recommend that this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information.

Be advised that Section 42-248, Idaho Code, requires you as the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office. These forms are available on the Department's website at: www.idwr.idaho.gov

Should you have any questions concerning this permit or the field examination, please contact either the State Office in Boise at (208) 287-4800, or the Eastern Regional Office in Idaho Falls at (208) 525-7161.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
