RE: Injury Analysis Regarding Transfer No. 72674

Dear Dave:

Enclosed please find a final version of the Injury Assessments of Groundwater Impacts for Proposed Water Rights Transfer, Comore Loma Subdivision, prepared by Clearwater Geosciences, LLP. If you have any questions regarding this analysis, please contact us, Mr. Tom Wood, or Mr. Robert Podgorney. As you will find in the conclusion section of this report, we have determined that there will be no injury to either local groundwater users or surface water users from the Snake River. As such, we request that the transfer be approved without the need for any mitigation.

We appreciate your patience in allowing us to finalize this analysis, and look forward to hearing from you soon on the processing of this transfer.

Sincerely,
