RE: App For Permit 72-16772

Dear Mr. Bullock;

We have received your application and your check for \$250. The application has been entered into our computer system under the above-referenced number. I have tried to interpret what you are requesting, and have prepared the enclosed computer-generated application for your review and signature. Of the total requested diversion rate, all but the amount requested for fish propagation could be used for heating as needed. Recreation use is for the two swimming pools, and assumes that geothermal water will go directly into the pools and not just around the outside for heating. The commercial use covers watering of plants in the commercial greenhouse, and domestic use covers the same thing in your personal greenhouse.

If the application is acceptable, please sign it and return it to me for processing. A receipt for your filing fee is enclosed. Contact me if you have questions or if the application needs to be changed.

Regards,

James E. Stanton
Sr. Water Resource Agent
