Re: Application For Permit to appropriate the Public Waters of the State of Idaho

Dear Ms. Griffin:

The Idaho Department of Water Resources is in receipt of your application for a new water appropriation for the Spirit Lake Industrial Park. Before processing can begin, the department will need a clarification of your intended service area and a copy of the articles of formation for Spirit Lake Industrial Park, that is registered with Idaho's Secretary of State.

It's not clear from the information submitted as to the proposed service area intended for the municipal water right. The map accompanying the application is not the same as the place of use description indicated in Item #9 of the application. I have enclosed an aerial photograph of the proposed service area as described from Item #9 for your review as well as a copy of the map submitted. The submitted map shows areas outlined in red and green which do not coincide with the quarter quarters described in Item #9. Please verify the true description of the proposed service area.

Please provide the requested information within the next 30 days so as not to further delay processing and if you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
