Mary:

Attached is the stipulated agreement that Tim Wilson, attorney for several of the protesters, has prepared for my signature. I am willing to sign this based on Water Resources setting the minimum flow at Two(2) CFS at the point of diversion.

If you are in agreement would you please secure approval from Chip and provide that approval to water resources. I still need to secure a couple other protesters agreement. Tim Wilson indicated this afternoon that his has letters out to the remaining protesters and is waiting to hear back from them.

Thanks for your help.
