CONDITIONS OF APPROVAL

1. The boundary encompassing the place of use for this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use is attached to this approval document to illustrate the place of use described by the digital boundary.
2. Prior to diversion and use of water under this right, the right holder shall install a totalizing measuring device of a type approved by the department on each point of diversion to measure the volume of water diverted. The measuring devices shall be read and recorded on a daily basis.

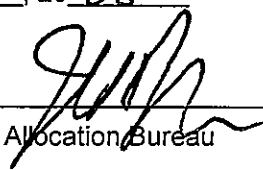

WATER RIGHT NO. 25-4297
As Modified by Transfer No. 72881

CONDITIONS OF APPROVAL

3. After specific notification by the department, the right holder shall report daily measurement data to the department.
4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
5. The right holder shall accomplish the change authorized by this transfer within five years of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
8. This right does not grant any right-of-way or easement across the land of another.
9. These water rights are from connected sources of water in the Snake River Basin and shall be administered conjunctively.
10. This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
11. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
12. Diversion and use of water under this right from the additional wells authorized under Transfer no. 72881, located in NWSW, Section 34, Township 02 North, Range 38 East and the NENW, Section 25, Township 02 North, Range 38 East, shall be subordinate to all ground water rights existing within the immediate area prior to the date of approval of this transfer upon determination of injury due to local well interference. The water rights transferred by Transfer no. 72881 retain their priority dates relative to all other actions to distribute water.
13. Construction of a replacement well at the location of an existing point of diversion is not authorized unless the water right holder: (1) limits the diversion flow rate from the replacement well to the flow rate authorized by the water right for the existing well prior to the approval of transfer no. 72881; or (2) obtains approval for the replacement well through an application for transfer.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

CONDITIONS OF APPROVAL

1. The boundary encompassing the place of use for this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use is attached to this approval document to illustrate the place of use described by the digital boundary.
2. Prior to diversion and use of water under this right, the right holder shall install a totalizing measuring device of a type approved by the department on each point of diversion to measure the volume of water diverted. The measuring devices shall be read and recorded on a daily basis.

WATER RIGHT NO. 25-7168
As Modified by Transfer No. 72881

CONDITIONS OF APPROVAL

3. After specific notification by the department, the right holder shall report daily measurement data to the department.
4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
5. The right holder shall accomplish the change authorized by this transfer within five years of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
8. This right does not grant any right-of-way or easement across the land of another.
9. These water rights are from connected sources of water in the Snake River Basin and shall be administered conjunctively.
10. This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
11. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
12. Diversion and use of water under this right from the additional wells authorized under Transfer no. 72881, located in NWSW, Section 34, Township 02 North, Range 38 East and the NENW, Section 25, Township 02 North, Range 38 East, shall be subordinate to all ground water rights existing within the immediate area prior to the date of approval of this transfer upon determination of injury due to local well interference. The water rights transferred by Transfer no. 72881 retain their priority dates relative to all other actions to distribute water.
13. Construction of a replacement well at the location of an existing point of diversion is not authorized unless the water right holder: (1) limits the diversion flow rate from the replacement well to the flow rate authorized by the water right for the existing well prior to the approval of transfer no. 72881; or (2) obtains approval for the replacement well through an application for transfer.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
