Re: Transfer Application – Rinker
Project No. 128-19-1998

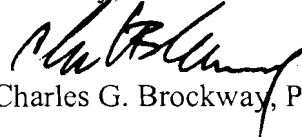

Dear Allen:

Enclosed is an Application for Transfer which seeks to change the place of use of 20 acres of irrigation water rights recently purchased by Harry Rinker from South County Estates. The purchased portion is currently applicable to land just south of Mr. Rinker's land near Bellevue, and the water will continue to be delivered via the District 45 canal. This application would also create a permissible place of use containing both the existing water rights on Mr. Rinker's land and the water being moved. The water being moved will not be stacked with the existing rights.

Pursuant to our telephone conversation on April 30, 2008, I understand that only one transfer application will be needed even though one of the transferred right is groundwater, since all water will be commingled in a common system. Also, I understand that the application fee will be based only on the flow rate for the 20 acres being moved, which is 1.87 cfs. This corresponds to a fee of \$290.00, which is enclosed.

Please do not hesitate to contact me if you have any questions.

Cordially,

Charles G. Brockway, P.E.
