Hi Scott,
Looks like according to receipt #S028260 for \$330.00 and #S028639 for \$160.00, they have already paid \$490.00. Jeanie

Subject: Cassia Creek Farms

Jeanie,

Lori has done a great job fixing my messes on the Cassia Creek Farms transfer. We are sending an amended dairy transfer and a new irrigation PPU transfer to Scott Campbell today for his review. These will then go to Chris Kretz for his signature, and I expect that we may be filing these next week or the week after.

Although there may be some changes in the meantime, here's what I expect will be submitted:

1. We've used the latest consumptive use data from ETIdaho (<http://www.kimberly.uidaho.edu/ETIdaho/>), and the Consumptive Irrigation Requirements from this data set is a little higher than from the Allen Brockway Appendix E that was previously used. Based on this data, the dairy will require transfer of about 12 fewer irrigated acres. The submittal will include details. One application will address the dairy site alone, with a total of about 2.2 cfs and 580 acre feet.
2. All of the remaining water rights will be incorporated into a PPU describing a combined irrigation system, with a total of about 71.1 cfs for 4172 irrigated acres.

It appears that the (#1) Dairy transfer will be \$330, and the (#2) irrigation PPU transfer will be \$2,032 [$\$1010 + \$20 \times (71.1 - 20)$] for a total \$2,362. What are the fees previously submitted so that we can submit the balance with the applications?

Thank you,
Scott
