Steve:

Good point. We'll get a check to you early next week. Thanks for pointing this out.

Jeff

Subject: M3 Application 63-32573, Drilling Permit Fee Upgrades

>> Jeff:

>>

>> Review of Application 63-32573 Attachment C, Existing Points of Diversion Locations

>> Table implies additional fees are needed for wells drilled under the "domestic

>> exemption" approach for reduced drilling permit fees.

>>

>> This applies to wells identified as Kling, Flack Corral, Gwynn, Moody and Davis.

>> Please see the attached "Drilling Permit Fees" explanation together with a marked up

>> copy of the above referenced Attachment C table. Other wells in the table are

>> assumed to be already covered by payment of expected drilling permit fees or cases

>> where those fees are clearly or assumed to be not applicable (well construction

>> started prior to 7/1/1987).

>>

>> Please have your client remit \$705 for well drilling permit fee upgrades since the

>> previously exempt wells are now proposed for non-exempt uses under 63-32573. This

>> will align those wells with well construction rules and water rights standards practiced

>> by IDWR. Thank you for your attention to this matter.

>>
