

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name: BRYAN C RAMBO CRUSHING CO INC 208-466-5195
Address: ~~8301 CHERRY LN~~ 2700 S Middleton RD
NAMPA ID 83687
2. Source: GROUNDWATER ~ 4 Trib. to:
3. Location of Point of Diversion: Lot 5 (NWNW), Sec. 5, Township 02N, Range 02W
CANYON County
4. Water will be used for the following purposes:
- | Purpose | From | To | CFS | (or) | AF |
|---------------------|------------------|------------------|------------------|------|----|
| IRRIGATION | 03/15 | 11/15 | 0.030 | | |
| INDUSTRIAL | 01/01 | 12/31 | 0.020 | | |
| ~~DOMESTIC~~ | ~~01/01~~ | ~~12/31~~ | ~~0.020~~ | | |
5. Total quantity to be appropriated is:
0.070 CFS (and/or) AF
0.05
6. Proposed diverting works:
- Description of ditches, flumes, pumps, headgates, etc.
CASED WELL 10"
 - Height of storage dam feet; active reservoir capacity
acre-feet; total reservoir capacity acre-feet; period of
year when water will be diverted to storage: to inclusive.
 - Proposed well diameter is 10 inches; proposed depth of well is 100
feet.
 - Is groundwater with a temperature greater than 90F being sought? NO
7. Time required for the completion of the works and application of
the water to the proposed beneficial use is 2 years.
8. Description of proposed uses:
IRRIGATION, INDUSTRIAL, ~~DOMESTIC~~
9. Place of Use: IRRIGATION

TWN	RGE	SEC	Lot	ACRES	ACRES	ACRES	TOTAL
02N	02W	5	Lot 4 (NWNW)	1			1

Total number of acres irrigated: 1

Database modification 4/20/92 OJY

Place of Use: INDUSTRIAL, same as IRRIGATION use

Place of Use: DOMESTIC, same as IRRIGATION use

10. Describe any other water rights used for the same purposes.

11. a. Who owns the property at the point of diversion?

APPLICANT

b. Who owns the land to be irrigated or place of use?

APPLICANT

c. If the property is owned by a person other than the applicant,
describe the arrangement enabling the applicant to make this filing.

12. Remarks:

Industrial use is for gravel pit operation.

Domestic use is for 1 office.

13. Map of proposed point of diversion and place of use attached? ☒

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

PHILIP E. BATT
GOVERNOR

KARL J. DREHER
DIRECTOR

May 19, 1995

**Distribution: Applicants Whose Water Right Applications Were Held
Without Action Under the Boise River Basin
Moratorium**

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

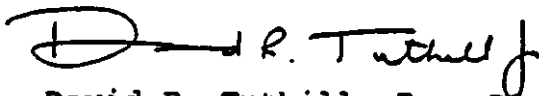

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.
Manager, Western Region Office

MEMORANDUM

TO: Application 63-11764
FROM: Brenda
DATE: July 6, 1992
RE: PARTIAL MORATORIUM HOLD

=====

This irrigation and industrial portions of the above referenced application will be held until the Snake River Basin Moratorium (issued May 15, 1992) is lifted. As proposed, they do not qualify for an exempt status.

The remaining, non-consumptive domestic use will be issued a new number, 63-11887, and processed as a permanent permit.

RECEIVED

JUN - 3 1992

Department of Water Resources
Western Regional Office

MEMORANDUM

TO: File No. 63-11764
FROM: Gary Spackman *Gary*
DATE: June 1, 1992

RE: Exemption from Snake River Basin Moratorium

On May 27, 1992, Tim Rambo of Bryan C. Rambo Crushing Company Inc. visited with me in my office about application for permit no. 63-11764. The application proposes irrigation, industrial and domestic use of water. The domestic use is for an office building. The application proposes industrial use of water for gravel washing. The water will spray across crushed gravel and will discharge to a settling pond, and ultimately discharge through a drainage ditch to Lake Lowell. The industrial use is a nonconsumptive use which is exempt from the moratorium. The domestic use will not exceed 2500 gallons per day and also qualifies for the definition set forth in Idaho Code § 42-111.

The application also proposes diversion of groundwater for the irrigation of poplar trees which would screen the gravel operation from the roadside. The screen is required by a conditional use permit granted to the gravel operation by Canyon County.

Rambo represented to me that no more than 100 poplar trees would be planted. He also represented that each poplar tree might require as much as 12 gallons per day in any given day. The trees will be irrigated by a pressurized pipe and a bubbler nozzle. The irrigation of the trees and the use of water in the office should not exceed 2500 gallons per day.

I recommend that we approve this application for domestic, irrigation and industrial use. The permit should state that the domestic and irrigation use cannot exceed 2500 gallons per day. The permit should also be conditioned that the industrial use shall be nonconsumptive.
