RE: Applications for Permit

Dear Applicant(s):

The Department of Water Resources has received your water right applications. Preliminary review of the applications indicate that they are incomplete and cannot be accepted for processing. We are returning your applications to allow you to complete the necessary items. The required information is described below.

Aleixo Application needs the following:

The Map was not provided correctly. A better map needs to be submitted, it is missing township, range, section and $\frac{1}{4}$ $\frac{1}{4}$'s.

The Point of Diversion was not provided correctly. The points of diversion are different, not on same property.

The Woodlands at Bills Island needs the following:

The point of Diversion was not provided correctly. You list only two points of diversion, but you state on page 2 that there could be as many as four. We have to know for sure how many wells you are going to have.

As far as the 42 homes, do you plan on having $\frac{1}{2}$ acre of lawn and garden with each home.

Please feel free to contact this office if you have any questions.

Sincerely,

Sharla Cox
Administrative Assistant
