RE: Water Right # 63-32546
(Locking Measuring Device)

I met with Rex Barrie on my farm at 24788
Boie River Road, Parma on Friday June 20, 2008. I
showed Mr. Barrie my gas ~~operated~~ operated water
pump. He said I would not need a lockable device
since it is gas operated. He sent you a letter dated
June 23, 2008 agreeing that a lockable controlling
device is not required. Therefore I respectfully request
to please waive the lockable controlling device from
the requirement on my water usage right.

Sincerely

Dan Erskine
