

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF CHANGING THE)
MEASURING DEVICE AND LOCKABLE)
CONTROLLING WORKS CONDITION OF)
PERMIT NO. 63-32546 IN THE NAME)
OF DAN J. ERSKINE AND/OR CONNIE)
R. ERSKINE)
_____)

**ORDER WAIVING
PERMIT CONDITIONS**

The Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install and maintain a measuring device and lockable controlling works as part of the diverting works; and

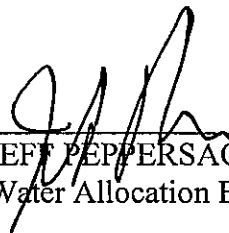

The Watermaster of Water District No. 63 advised the department in a letter dated June 23, 2008 regarding the lockable controlling works is unnecessary because "the pump is located on his property and must be fueled before it can operate."

The Watermaster also stated that he would request that the permit holder "submit to my office a monthly report of the total quantity in gallons per hour used as rated on his pump."

The department has determined that the measuring device and lockable controlling works is not presently needed to measure the water in question;

IT IS HEREBY ORDERED that the condition of approval requiring the installation of a lockable controlling works and measuring device for the above captioned permit is **WAIVED**. The department retains jurisdiction to reinstate the condition in the future upon a finding of need by the department.

Dated this 11th of July, 2008.

JEFF PEPPERSACK, Chief
Water Allocation Bureau
